Breast Cancer Diagnostic Procedures

13. Additional mammographic views mm/dd/ccyy
14. Repeat breast exam/Surgical consult mm/dd/ccyy
15. Ultrasound mm/dd/ccyy
16. Biopsy/Lumpectomy mm/dd/ccyy
17. Fine needle/Cyst aspiration mm/dd/ccyy
18. Other procedure performed mm/dd/ccyy
19. Specify
20. Other procedure performed mm/dd/ccyy
21. Specify

22. Breast Cancer Diagnosis Status
   - Work-up complete
   - Lost to follow-up (Two phone calls and certified letter sent)
   - Work-up refused
   - Died before work-up completed

23. Date of this diagnostic status mm/dd/ccyy

24. Breast Cancer Final Diagnosis
   - Not Cancer
   - Cancer in situ (specify either Lobular or Ductal below)
   - Lobular Cancer in situ (LCIS) (AJCC stage 0)
   - Ductal Cancer in situ (DCIS) (AJCC stage 0)
   - Invasive Cancer

25. Date of this final diagnosis mm/dd/ccyy

26. Invasive Breast Cancer Stage
   - AJCC stage I
   - AJCC stage II
   - AJCC stage III
   - AJCC stage IV
   - Stage unknown

27. Invasive Breast Cancer Tumor Size
   - 0 to <= 1 cm
   - > 1 to <= 2 cm
   - > 2 to <= 5 cm
   - > 5 cm
   - Unknown

28. Breast Cancer Treatment Status
   - Treatment Initiated
   - Referred for treatment (pending)
   - Lost to follow-up (Two phone calls and certified letter sent)
   - Treatment refused
   - Treatment not needed
   - Died before entering treatment

29. Date of this treatment status mm/dd/ccyy

Complete a Breast Follow-up form when Immediate Work-up was selected as the Next Step on the Breast Screen form.

18-21. Enter only the following diagnostic procedures as an Other Procedure Performed: MRI, CT Scan, PET scan, ductogram, skin biopsy, cannulization, C&S nipple discharge, CAD, chest x-ray, galactogram, bone scan, sentinel lymph node biopsy, and other medical consults. (Please report any of the procedures listed above even though they are not covered by CDP:EWC.)

Do not enter Mammogram, CBE, Ultrasound, Biopsy, FNA, or treatment as an Other Procedure Performed.

22. Select a Breast Cancer Diagnosis Status and enter the Date of this Diagnostic Status (#23) for all patients who required Immediate Work-up as the Next Step.

22a. When Work-up is Complete (no more immediate diagnostic procedures are needed) enter the Date of this Diagnostic Status (#23) and then enter the Breast Cancer Final Diagnosis (#24) and Date of this Final Diagnosis (#25).

22b-d. If work-up was not complete (patient was Lost to Follow-up, Work-up Refused, or Died), enter the Date of this Diagnostic Status (#23) and the Date of this Final Diagnosis (#25), but do not select a Breast Cancer Final Diagnosis category.

22c. If patient acquired insurance, moved out of the area, or changed PCP, select Work-up Refused.

24a. Select Not Cancer when Work-up is Complete and cancer is not found during current diagnostic procedures. If any procedures are planned in 3 to 6 months, begin a new Breast Screen form.

24b. Do not use “Cancer in situ.” Specify either Lobular (LCIS, #24c) or Ductal (DCIS, #24d).

24e. Select Invasive Cancer for Paget’s disease.

25. Enter Date of this Diagnostic Status (#23) as the Date of this Final Diagnosis (#25) for patients that are Lost to Follow-up, Refused service or Died. (A final diagnosis category is not required unless the work-up was completed).

26. Invasive Breast Cancer Stage: Make every effort to obtain stage and tumor size from the surgeon, pathologist or oncologist. For LCIS and DCIS (Stage 0), stage and tumor size are not needed. Select Stage Unknown only for Malignant phyllodes, or when stage is truly not available from any source.

27. Tumor Size is required for all invasive cancers. Select Size Unknown only for Inflammatory breast cancer, or when tumor size is truly not available from any source.

28. Breast Cancer Treatment Status and Date (#29) must be completed for all diagnoses of cancer.

28b. Do not use “Referred for treatment (pending).” Contact referral provider to obtain date treatment started. Data submission is not complete while treatment is pending.
