*CIN II, CIN III, HSIL and Invasive Cervical Cancers require complete Treatment Status information.*

---

**Complete a Cervical Follow-up form when Immediate Work-up was selected as the Next Step on the Cervical Screen form.**

### 14-17. Do not enter Pap Smear Tests or Pelvic Exams on this Cervical Follow-up form. If a Pap test was performed to test for HPV, enter “HPV test” as “Other procedure performed.”

Enter only the following diagnostic procedures as an Other Procedure Performed: HPV test, endocervical curettage (ECC), excision of endocervical polyps, endometrial biopsy (EMB), diagnostic conization, biopsy of other structures such as vagina and vulva, cervicography, and loop electrocautery excision procedure (LEEP). *(Please report any of the procedures listed above even though they are not covered by CDP:EWC.)*

**Do not include treatments** such as cryosurgery, hysterec- tomy, laser or cautery.

### 18. Enter a Cervical Cancer Diagnosis Status and the Date of this Diagnostic Status (#19) for all patients who required Immediate Work-up as the Next Step.

**18a.** When Work-up is Complete (no more immediate diagnostic procedures are needed) enter the Date of this Diagnostic Status (#19) and then enter the Cervical Cancer Final Diagnosis (#20) and Date of this Diagnosis (#21).

**18c.** If patient acquired insurance, moved out of the area, or changed PCP, enter Work-up Refused.

### 20. The Final Diagnosis is usually based on a biopsy result. If any short-term follow-up is planned, begin a new Cervical Screen form.

**20g.** Enter only the following final diagnoses as Other: HSIL, LSIL, cervical polyps, adenocarcinoma of the cervix, vaginal intraepithelial neoplasia (VAIN), vulvar intraepithelial neoplasia (VIN), and other cancers of the endometrium, vagina, ovaries or vulva (including primary and metastatic). *(Do not enter Pap test results.)*

### 21. Enter the Date of this Diagnostic Status (#19) as the Date of this Diagnosis (#21) for patients that are Lost to Follow-up, Refused service or Died. *(A final diagnosis category is not required unless the work-up was completed.)*

### 22. Invasive Cervical Cancer Stage: Make every effort to obtain stage from surgeon, pathologist, oncologist, or hospital. Both AJCC and FIGO staging are acceptable.

### 23. Cervical Cancer Treatment Status and Date (#24) must be completed for a diagnosis of CIN II, CIN III, HSIL or Invasive Cervical Cancer.

**23b.** Do not use “Referred for treatment (pending).” Contact referral provider to obtain date treatment was started. Data submission is not complete while treatment is pending.
