

November 19, 2009

Dear Provider,

Subject: Resubmission of Claims.

EDS, an HP company, identified a claims processing issue affecting ICD-9-CM Volume 3 procedure codes 00016 (pressurized treatment of venous bypass graft [conduit] with pharmaceutical substance) and 00017 (infusion of vasopressor agent). Implementation of the 2005 HCPCS annual update for ICD-9-CM Volume 3 procedure codes listed above was delayed, causing affected claims to be erroneously denied with Remittance Advice Details (RAD) code message **067: The primary/secondary surgical procedure code has no match on the procedure file.**

No action is required on your part. EDS is automatically resubmitting the affected claims, for dates of service November 7, 2005, through June 15, 2009, beginning November 27, 2009. These resubmits will be paid, or denied for a valid reason, for RADs with Claim Control Number (CCN) prefix **931755**.

If you disagree with any of these resubmits, you may submit a *Claims Inquiry Form (CIF)* within six months of the new RAD date. For CIF completion instructions, please refer to the *CIF Completion* and *CIF Special Billing Instructions* sections in the appropriate Part 2 manual or on the Medi-Cal Web site (www.medi-cal.ca.gov).

If you have questions, please call the Telephone Service Center (TSC) at 1-800-541-5555, option 11 followed by option 18.

A handwritten signature in cursive script that reads "Nona Carpenter".
