California Department of Health Services Reorganization

Effective July 1, 2007, certain responsibilities held by the California Department of Health Services (CDHS) were transferred to the new California Department of Public Health (CDPH). The CDPH was created by Senate Bill (SB) 162 within the existing Health and Human Services Agency. At the same time, CDHS was renamed as the Department of Health Care Services (DHCS).

Benefits to reorganizing CDHS into CDPH and DHCS include:

- Providing more focused leadership in public health and health care financing at the state level
- Streamlining management of complex program components along functional lines
- Creating a more effective public health infrastructure in California resulting in decreased illness, injury and death rates
- Providing greater protection for California residents in the event of an act of bioterrorism or other major public health emergency
- Increasing accountability, responsiveness, effectiveness and transparency for the public health and health care purchasing functions of state government
- Providing visibility on important health care issues for providers, local health departments, federal government, the legislature, advocates, the press and the general public
- Recruiting and retaining top quality staff for the new departments

Current day-to-day operations will continue under both CDPH and DHCS. For more information about the CDHS reorganization, including organization charts and frequently asked questions, visit the “CDHS Reorganization” page at www.dhs.ca.gov/home/organization/reorganization.

New e-mail addresses, Web links, mailing addresses and other information necessary to communicate with the CDPH and DHCS programs will be posted to the “CDHS Reorganization” page.

POS Updates Coming for NPI Implementation

To prepare for Medi-Cal's National Provider Identifier (NPI) implementation on November 26, 2007, the Department of Health Care Services (DHCS) is updating the Point of Service (POS) system to process the 10-digit NPI in all transactions and expanding the Share of Cost (SOC) Spend Down Procedure Code field from 11 characters to 19 characters.

Note: Providers not eligible for an NPI will continue to use the nine-digit Medi-Cal provider number.

Modifications are being made to the following:

- POS device software
- Internet software
- Mainframe supportive software

Real-Time Processing transactions included are:

- Internet transactions
- Point of Service (POS)
- Automated Eligibility Verification System (AEVS)
- Supplemental Automated Eligibility Verification System (SAEVS)

To ensure a smooth transition on November 26, 2007, all providers must complete test transactions with the NPI and the appropriate qualifier before September 21, 2007. For assistance with testing, contact the POS Help Desk at 1-800-541-5555. Choose option 16 from the main menu and option 16 from the submenu for further instructions or to request a hard copy of the *POS Device User Guide*.

POS Device Download

Beginning August 25, 2007, messages will appear on POS devices announcing an automatic software update download. No action is required by providers except to leave the device on at the end of the day. The software will download automatically.

This software update accommodates the 10-digit NPI in preparation for Medi-Cal's implementation on November 26, 2007. Providers must continue to enter the Medi-Cal provider number until the NPI implementation date. If an NPI is entered before November 26, 2007, the POS device will return an error message.

Once the software is downloaded, a test transaction is required. Test transactions must be completed by September 21, 2007 and include the NPI and appropriate qualifier. Instructions for performing the test transaction are provided in the *Device System Transactions* section of the *POS Device User Guide* available on the Medi-Cal Web site (www.medi-cal.ca.gov). From the home page, click "User Guides" (under "Provider Resources"), then "POS Device User Guides" and, finally, click the "Device System Transactions" link. Providers may also call the POS Help Desk.

Eligibility

On November 26, 2007, Medi-Cal will accept only the NPI for eligibility, Medical Service reservations and Spend Down dial-up or leased-line transmissions. Information regarding sending and receiving data via leased-line and dial-up submissions is available in the *ASC X12N 270/271 Version 4010A1 Health Care Eligibility Benefit Inquiry and Response* companion guide located on the Medi-Cal Web site (www.medi-cal.ca.gov).

Providers can access the guide by clicking the "HIPAA" link under "Provider Resources," then the "ASC X12N Version 4010A1 Companion Guides and NCPDP Technical Specifications" link. On the following page, click "ASC X12N 270/271 Version 4010A1 Health Care Eligibility Benefit Inquiry and Response (Real-Time and Batch)" to download the *270/271 Overview for Leased-Line, Dial-Up and Batch Submissions* section of the guide. Information about mandatory testing for the 270/271 v.4010A1 eligibility transaction using the NPI is in that section.

Please see **POS Updates**, page 4

POS Updates (continued)

Pharmacy

On November 26, 2007, Medi-Cal will accept only the NPI for all National Council for Prescription Drug Programs (NCPDP) Version 5.1 dial-up and leased-line transmissions. NCPDP Version 5.1 technical publications will be available on the Web page referenced above at a future date. Future *Medi-Cal Updates* will include more information. Test data for NCPDP transactions using the NPI are detailed in the NCPDP 5.1 specifications.
